REBA
Renewable Energy Buyers Alliance

Building a resilient, zero-carbon energy system where every organization has a viable, expedient, and cost-effective pathway to renewable energy.

Statement of Support for the Principles

Colocation and Cloud Providers

BACKGROUND

By signing this statement, _____ commits to supporting the Corporate Colocation and Cloud Buyers' Principles and the mission of Future of Internet Power to power the internet with 100 percent renewable energy. As a supporter:

- We support the Corporate Colocation and Cloud Buyers' Principles. Below, please provide a <100 word statement as to how your company meets or plans to meet the six criteria.

- We agree that our company name be listed as a Supporter of the Principles on Future of Internet Power's website, and our logo may be used on relevant presentation materials.

Please send this completed form and an approved company logo to Lily Proom at lproom@rebuyers.org and you will receive an approval confirmation or request for clarification soon after. Note that this statement will not be made public and is for internal review by Future of Internet Power only. Thank you for your support!
